Beautifully your home and simplify your life— with automated light control.

Optimize your interior, exterior and landscape lighting with a home light control system package featuring the sophisticated Chronos™ timeclock.

Enhance the décor of your home using layers of light, and select lighting scenes for any task or occasion—at the touch of a button.

RadioRA® systems are designed to work in new, or existing homes. You can easily expand your system at any time with additional dimmers, controls and accessories.

RadioRA dimmer in white with Claro® wallplate

RadioRA dimmers replace ordinary switches and feature a gradual fade-to-off.

RadioRA wall-mounted master control

Automated home light control for new and existing homes

Harmonize your lighting with your lifestyle.

10

areas of light

Chronos Package

Control ten areas of light with this full-featured light control package.†

Select from two assortments of master controls, featuring all wall-mounted, or a mix of wall-mounted and cordless tabletop master controls.

Chronos Wall Package (RALB-CHR-W-xx)

For those who prefer all wall-mounted master controls.

package includes:

- (7) 600W dimmers
- (3) 1000W dimmers
- (3) accessory dimmers
- (3) wall-mounted master controls
- (2) car visor remotes
- (1) entry master control
- (1) Chronos system bridge and timeclock

Chronos Mixed Package (RALB-CHR-M-xx)

Offers a mix of master controls, including control from bedside.

package includes:

- (7) 600W dimmers
- (3) 1000W dimmers
- (3) accessory dimmers
- (2) wall-mounted master controls
- (1) cordless tabletop master control
- (2) car visor remotes
- (1) entry master control
- (1) Chronos system bridge and timeclock

30

areas of light

Chronos Premium Package

Control thirty areas of light with this expanded automated light control package.†

Enjoy an assortment of master controls, and add ambiance by controlling more of the lighting in your home.

Chronos Premium Package (RALB-CHR-PRM-WH)

The broadest range of RadioRA® dimmers and master controls offered in a single package.

package includes:

- (24) 600W dimmers
- (6) 1000W dimmers
- (6) accessory dimmers
- (4) wall-mounted master controls
- (1) tabletop master control
- (2) car visor remotes
- (1) entry master control
- (1) signal repeater
- (1) Chronos system bridge and timeclock

Chronos system bridge and timeclock provides preset automated light control and enables system expansion.

Chronos integrates with other controls in your home, such as A/V components and home automation systems. It can connect to your security system, and functions as a reliable signal repeater.

dimmer replaces existing dimmers or switches to control individual lights in each room

car visor remote controls your system's lights and garage door from your car

accessory dimmer works with dimmer to provide dimming from multiple locations

entry master control communicates with car visor remotes and connects to security system and garage doors

wall-mounted master control controls system lights and scenes from anywhere in your home

signal repeater ensures reliable communication between system components

tabletop master control controls system lights and scenes from anywhere in your home

network control interface enables system control via computer-based devices, using a home network*

A RadioRA® light control system with the Chronos astronomic timeclock adds safety, convenience, ambiance and security to your home.

- Set your lights to automatically turn off at bedtime, and on to greet you in the morning
- Synchronize landscape lighting with sunrise and sunset
- Control interior and exterior lights from convenient master controls throughout your home
- Simulate occupancy while you're away, and integrate lights with your security system

Control system lights using your home network.

Use popular devices (PC, PDA, tablet or touchscreen) to control your lights from remote locations via a web browser.*

Ask your salesperson about adding network control to your Chronos Premium package.

Chronos Network Package

Chronos Network Wall Package (RALB-CHRNW-W-xx)

package includes:

- (1) Chronos wall package
- (1) network control interface

Chronos Network Mixed Package (RALB-CHRNW-M-xx)

package includes:

- (1) Chronos mixed package
- (1) network control interface

† An area of light consists of a light—or group of lights—controlled by one switch or dimmer, in one or more locations

* Requires suitable network configuration
